

OUR NEW LOOK WITH OUR PROTECTIVE GEAR

COVID-19 PROTOCOLS

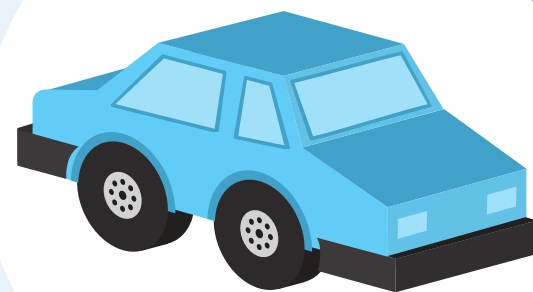

continuing to keep you safe and healthy

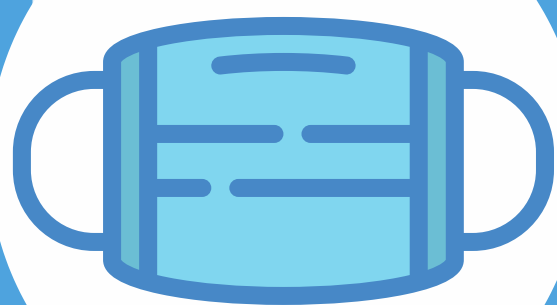

In addition to our already extensive and thorough sterilization and infection prevention and control protocols, we will be increasing vigilance in other areas to help minimize any possible viral spread. Please be patient with us while we do our best to navigate these changes to ensure your health and safety.

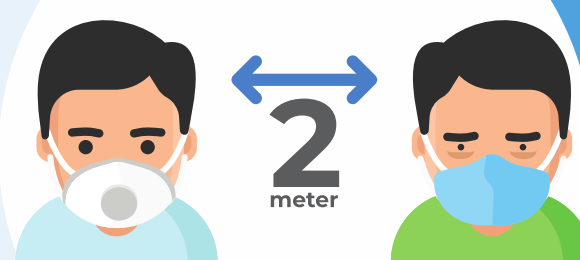

COVID related screening questions will be asked prior to scheduling and confirming your appointment

Upon arrival, where possible, you will be asked to notify us, then instructed to wait in your car until you are called

Before entering the office, you will be asked to bring and wear your own mask

Social distancing whenever possible will be encouraged and reinforced through physical screens and contactless billing

Hand hygiene will be facilitated through the use of provided hand sanitizer when you enter the office

Only patients with appointments and one guardian will be permitted into the office

Your temperature will be recorded and you will be asked to use a pre-treatment rinse

All books, magazines and beverages have been removed from the waiting area to limit risk of transmission

You will be asked to reschedule your appointment if you or someone in your household has been sick in the past 2 weeks

Increased time between patients and fewer patients will be scheduled per day to maintain enhanced protective measures
